## Solar PV Rodent Protection

### FR-CRITTER SPECIFICATIONS:

- 100' x 8" roll
- Galvanized wire is easy to bend but holds its shape
- PVC Coated - black
- 100 J-Hooks and Captive Washers for easy installation

**The Critter Guard** fence system forms an enclosure around the array that protects your solar system against damage from rodents. It was designed to meet CE code and keep rodents from building nests or chewing wires.

### CRITTER GUARD ADVANTAGES

#### 2015 CE CODE COMPLIANT

Critter Guard meets 2015 CE code for when arc fault protection is not met at the module level.

#### PVC COATED GALVANIZED WIRE FENCE

The Critter Guard was designed from materials that are built to last the life of your solar system.

#### J-HOOKS REDUCE INSTALLATION TIME

The simple J-Hook & Washer install system minimizes roof time and speeds up installation.
