

## Talon XE

### Sloped Roof Mount Attachment

#### FEATURES

- Waterproof seal with flashing and butyl
- Robust steel anchor plate
- Multi-screw connection distributes loads
- Fewer screws and components
- Anchor points for deck and truss mount

#### ADVANTAGES

- Redundant barrier sheds water and seals roof
- Fully engineered for high load capacity
- Deck mount eliminates locating trusses
- Rapid installation
- Versatile mounting options

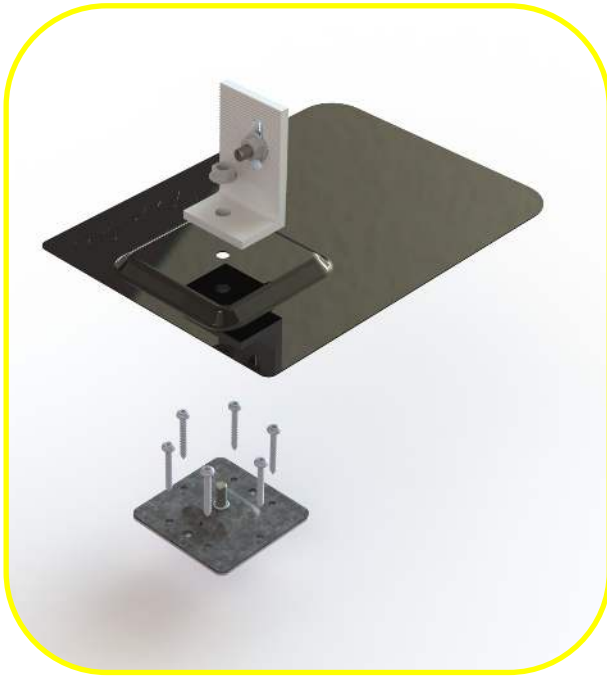

The Fast-Rack Talon XE is an innovative, rafterless PV mounting attachment system that integrates seamlessly with the Fast-Rack Ultra rail system. The Talon XE allows L-Feet to be installed anywhere on your roof—not just over rafters. This system eliminates locating trusses, predrilling and accidental misses; saving you time on every install. The Talon XE features a smaller footprint, optimized flashing and reduced quantity of attachment screws, for the fastest flashed installation.

MADE FOR CANADA

## Talon XE — Sloped Roof Mount Attachment

### Deck Mount

- Fastens to the roof sheathing with 6 screws
- Flexibility in positioning on the roof
- Does not require trusses to be located

OR

### Truss Mount

- Fastens into the roof truss with 2 screws
- Requires both screws to engage with the truss
- High load capacity for roofs without a solid deck

**Watertight:** Dual-layer protection with metal flashing and butyl gasket for superior, industry-leading water sealing.

**Durable:** Every component has been tested to ensure quality, even in Canada's most extreme environments

**Bankable:** Fast installations and low cost solutions keep your projects on track.

**Protected:** Fast-Rack Talon XE is covered by our 25-year warranty.

### Specifications

Waterseal	Metal flashing, butyl sealing gasket & EPDM O-ring
Deck Attachment	6 x #10-1.5" Pan Head Square Drive Metal Screws*
