

Our newest IQ8 Microinverters are the industry's first microgrid-forming, software-defined microinverters with split-phase power conversion capability to convert DC power to AC power efficiently. The brain of the semiconductor-based microinverter is our proprietary application-specific integrated circuit (ASIC) which enables the microinverter to operate in grid-tied or off-grid modes. This chip is built in advanced 55-nm technology with high-speed digital logic and has superfast response times to changing loads and grid events, alleviating constraints on battery sizing for home energy systems.

Part of the Enphase Energy System, IQ8 Series Microinverters integrate with the Enphase IQ Battery, Enphase IQ Gateway, and the Enphase App monitoring and analysis software.

Connect PV modules quickly and easily to IQ8 Series Microinverters using the included Q-DCC-2 adapter cable with plug-and-play MC4 connectors.

IQ8 Series Microinverters redefine reliability standards with more than one million cumulative hours of power-on testing, enabling an industry-leading limited warranty of up to 25 years.

IQ8 Series Microinverters are UL Listed as PV Rapid Shut Down Equipment and conform with various regulations, when installed according to the manufacturer's instructions.

- * Only when installed with IQ System Controller 2, meets UL 1741.
- ** IQ8M and IQ8A support split-phase, 240 V installations only.

Easy to install

- Lightweight and compact with plugand-play connectors
- Power line communication (PLC) between components
- Faster installation with simple two-wire cabling

High productivity and reliability

- Produce power even when the grid is down*
- More than one million cumulative hours of testing
- · Class II double-insulated enclosure
- Optimized for the latest highpowered PV modules

Microgrid-forming

- Comply with the latest advanced grid support**
- Remote automatic updates for the latest grid requirements
- Configurable to support a wide range of grid profiles
- Meet CA Rule 21 (UL 1741-SA) and IEEE® 1547:2018 (UL 1741-SB 3rd Ed.)

NOTE:

- IQ8 Microinverters cannot be mixed with previous generations of Enphase microinverters (IQ7 Series, IQ6 Series, and so on) in the same system.
- IQ Gateway is required to change the default grid profile at time of installation to meet local Authority Having Jurisdiction (AHJ) requirements.

INPUT DATA (DC)	UNITS	108M-72-2-US	108A-72-2-US
Commonly used module pairings ¹	W	260-460	295-500
Module compatibility	_	To meet compatibility, PV modules must be within maximum ir Module compatibility can be checked at	

⁽¹⁾ No enforced DC/AC ratio.

⁽²⁾ Nominal voltage range can be extended beyond nominal if required by the utility.

⁽³⁾ Limits may vary. Refer to local requirements to define the number of microinverters per branch in your area.

MECHANICAL DATA				
Weight	1.08 kg (2.38 lbs)			
Cooling	Natural convection - no fans			
Approved for wet locations	Yes			
Pollution degree	PD3			
Enclosure	Class II double-insulated, corrosion-resistant polymeric enclosure			
Environment category/UV exposure rating	NEMA Type 6/Outdoor			
COMPLIANCE				
Certifications	CA Rule 21 (UL 1741-SB), UL 62109-1, UL1741/IEEE® 1547, FCC Part 15 Class B, ICES-0003 Class B, CAN/CSA-C22.2 NO. 107.1-01 This product is UL Listed as PV Rapid Shut Down Equipment and conforms with NEC 2014, NEC 2017, NEC 2020 and NEC 2023 section 690.12 and C22.1-2018 Rule 64-218 Rapid Shutdown of PV Systems, for AC and DC conductors, when installed according to the manufacturer's instructions.			

Revision history

REVISION	DATE	DESCRIPTION			
DSH-00243-1.0	October 2023	Updated module compatibility specification and NEC 2023 specification in the Compliance section.			
Previous release.
